| greater than or |  |  |  |  |  |
| RANK |  |  |  |  |  |

For elementary, middle, and K-8 schools, the percent of schools receiving top grades was set in advance. Schools with average English and Math performance in the top third citywide cannot receive a grade lower than a C. Schools in their first year, in phase out, or with fewer than 25 students with progress results receive a report with no grade or score.

| Progress Report Grades - Elementary |  |  |
| :---: | :---: | :---: |
| GRADE | SCORE RANGE | \% OF SCHOOLS |
| A | 60.1 or higher | $26 \%$ of schools |
| B | $48.8-60.0$ | $35 \%$ of schools |
| C | $36.5-48.7$ | $31 \%$ of schools |
| D | $30.0-36.4$ | $6 \%$ of schools |
| F | 29.9 or lower | $2 \%$ of schools |

## QUALITY REVIEW

Developing (2012-13)
The rating is based on three major categories of school performance: instruction that prepares students for college and careers, school organization and management, and quality of the learning environment.

A school that receives a Developing rating typically demonstrates inconsistent teaching and learning practices and is working towards effective school management and a more positive learning environment. For more information see:
http://schools.nyc.gov/Accountability/tools/review

Overview Each school's Progress Report (1) measures the student year-to-year progress, (2) compares the school to peer schools, and (3) rewards success in moving all children forward, especially children with the greatest needs.

| CATEGORY | SCORE | GRADE | DESCRIPTION |
| :---: | :---: | :---: | :---: |
| Student Progress | 44.9 <br> out of 60 | A | Student Progress measures how much individual students improved on state tests in English and Math between 2012 and 2013, compared to other students who started at the same level. |
| Student Performance | $8.9$ <br> out of 25 |  | Student Performance measures student results on the 2013 state tests in English and Math. |
| School <br> Environment | $9.9$ <br> out of 15 |  | School Environment measures student attendance and a survey of the school community rating academic expectations, safety and respect, communication, and engagement. |
| Closing the Achievement Gap | 4.8 <br> out of 17 |  | Schools receive additional credit for exceptional gains by students with disabilities, English Language Learners, and students starting with the lowest proficiency citywide. |
| Overall Score | $68.5$ <br> out of 100 | A | The overall grade is based on the total of all scores above. Category scores may not add up to total score because of rounding. |

*During the 2012-13 school year, New York City public schools were affected by Hurricane Sandy. Adjustments have been made to attendance rates for all schools.

## Progress Report Implications

Strong Progress Report results are the basis for recognition and potential rewards for school leaders, and poor results are an important factor in determining whether schools require intensive support or intervention. For more information, see:
http://schools.nyc.gov/community/planning/Support+and+Intervention.htm http://schools.nyc.gov/ProgressReport

## State Accountability

The school's current status: Priority
This designation is determined by the New York State Department of Education under the Elementary and Secondary Education Act (ESEA) Flexibility Waiver. More information on New York State accountability can be found here:

## How To Interpret These Charts

To determine the number of points earned, this school's 2012-13 results on each metric are compared to the results of peer schools and all schools serving the same grade levels citywide. The comparison to peer schools is worth $75 \%$ of the points for each metric and the comparison to all schools citywide is worth $25 \%$ of the points. The bars represent the range of results for the peer and city comparison schools that are within two standard deviations of the average. The percent of the range that is shaded is the school's share of possible points. The share is multiplied by the weight ( $75 \%$ or $25 \%$ ) and the possible points for the metric to determine the points earned.

EXAMPLE $(60 \% \times 0.75+80 \% \times 0.25) \times 3.75=2.44$

## School Survey Results

## How To Interpret These Charts

To determine the number of points earned, this school's 2012-13 results on each metric are compared to the results of peer schools and all schools serving the same grade levels citywide. The comparison to peer schools is worth $75 \%$ of the points for each metric and the comparison to all schools citywide is worth $25 \%$ of the points. The bars represent the range of results for the peer and city comparison schools that are within two standard deviations of the average. The percent of the range that is shaded is the school's share of possible points. The share is multiplied by the weight ( $75 \%$ or $25 \%$ ) and the possible points for the metric to determine the points earned.

Schools receive additional credit for exceptional gains by students with disabilities, English Language Learners, and students starting with the lowest proficiency citywide. A school earns additional credit when each high-need student meets the success criteria for an eligible metric. The number of points will depend on the percentage of the school's population that is in the high-need group, the percentage of that group that is successful, and a "fixed point value" based on how difficult it is to achieve the success criteria. Additional Credit can only improve a school's Progress Report score. It cannot lower a school's score. Elementary schools are eligible for points on 16 additional credit metrics while middle and K-8 schools are eligible for points on up to 17 metrics, each of which is worth up to one point. (In the table below, "." in "This School's Results" indicates that a school has fewer than 5 eligible students in one of the categories.)

|  |  |  |

Each school's performance is compared to the performance of schools in its peer group. Peer schools are those New York City public schools with a student population most like this school's population, according to the Peer Index. Each elementary and middle school has up to 40 peer schools and each K-8 school has up to 30 peer schools.

## PEER GROUP CALCULATION

Peer groupings are created using a "nearest neighbor" matching methodology. This methodology examines the mathematical difference between a school and all potential peers on a given set of characteristics. Schools with the smallest difference across all the characteristics are peered together.

PEER GROUP FOR: The School of Science and Applied Learning
